

Sitt alltid ner på toaletten.  
Sitt lite längre bak än vanligt så att urin och fast avfall separeras.

När du sätter dig ner svänger insynsskyddet undan.

Toalettpappret slängs i samma fack som det fasta avfallet.

När du är färdig håller du en kopp med vatten i urinskålen.

Istu aina alas käymälällä asioidessasi!  
Istu hieman normaalia taemmas, jotta virtsa ja kiinteä jäte erottuvat oikein.

Istuutuessasi käymälälle siirtyy näkösuoja sivuun.

WC-paperi laitetaan kiinteän jätteen säiliöön.

Kaada asioinnin päätteeksi virtsamaljaan kupillinen vettä.

Always sit down on the toilet.

*Sit a little further back than usual so that urine and solid waste gets separated.*

When you sit down, the privacy flap turns away.

The toilet paper goes in the same container as the solid waste.

When you are finished, pour a cup of water in to the urine bowl.

Ausschließlich im Sitzen benutzen!

*Ggf. etwas mehr nach hinten positionieren als gewohnt, damit die Trennung der Ausscheidungen wie vorgesehen funktioniert.*

Die blaue Sichtschutzklappe öffnet sich, sobald man sich setzt.

Toilettenpapier kann einfach mit in den Sammelbehälter gegeben werden - keinesfalls in dem vorderen Urinalbereich zurücklassen.

Zur gelegentlichen Reinigung des Urinablaufs genügt ein Becher Wasser.
