Fissaggio della Colonna doccia/Fixing column

Avvitare in senso orario la
sezione da 20 cm e la seconda
da 42 cm

Screw the 20 cm section and the
42 cm section clockwise

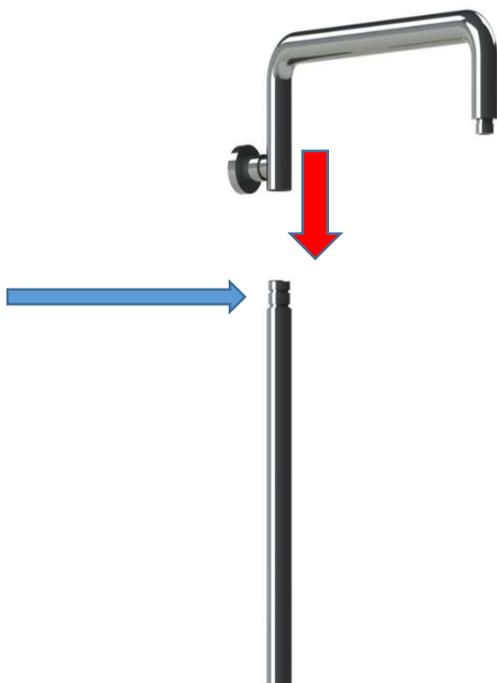

O-RINGS

Avvitare in senso orario la terza sezione e controllare che siano presenti le o-rings

screw the third section clockwise and check that the o-rings are present

o-rings

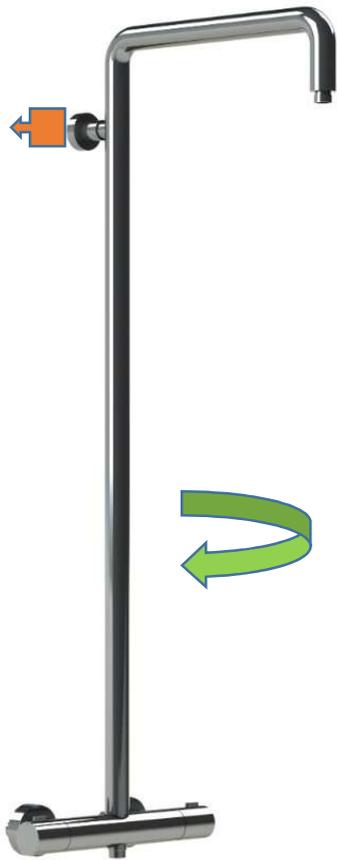

Inserire l'ultima sezione della colonna facendo attenzione a non tagliare le o-rings

Insert the last section of the column paying attention not to cut the o-rings

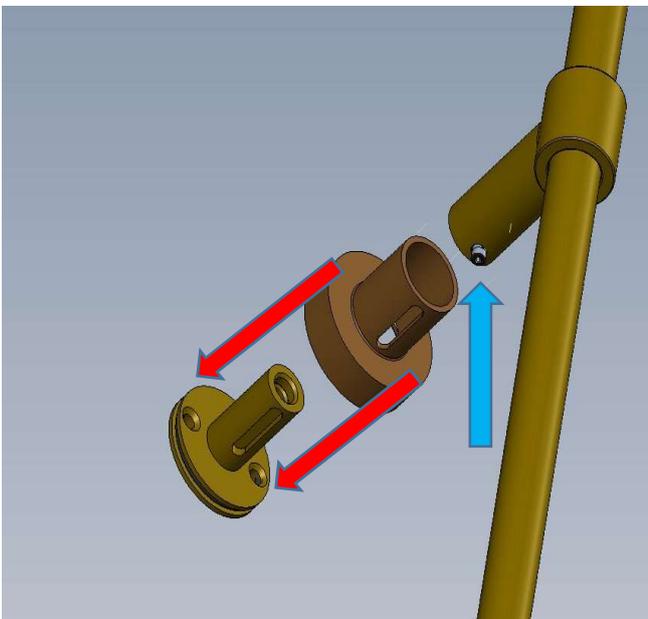

Regolare la posizione in modo
perpendicolare e segnare la
posizione esatta.

Adjust the position
perpendicular and mark the
exact position.

Una volta segnata la posizione desiderata, smontare la colonna doccia e forare per inserire i tasselli.

Once the desired position has been marked, remove the shower column and drill to insert the plugs

Svitare la vite a brugola 2.5mm e fissare con le apposite viti la parte predisposta del fissaggio. Riavvitare nella posizione desiderata.

Unscrew the 2.5mm socket screw and fasten the prepared part of the fastening with the appropriate screws. Retighten in the desired position.
