DESCRIPTION

The effect of the Tristar AC-5529 Mobile Air Conditioner can be felt immediately: this mobile and compact air conditioner can be used anywhere cooling is required. It has a low energy consumption and energy class A.

Adjust to your own preferences

The cooling capacity of the AC-5529 Air Conditioner is 9000 BTU and 2.63 kW, which makes the air conditioner suitable for a

room up to 80m³. The produced airflow is 320m³ per hour. Of course, you can select the temperature yourself with a range from 16°C to 31°C. The air conditioner has three different operation modes: cooling, dehumidifying and fan.

Drying and fan

When using Tristar air conditioner as a fan, there are two fan speeds possible. You can also decide to use the air conditioner to dry the air, with a dehumidification of 1.2 litre per hour. The water tank has a volume of 0.5 litre and a full tank indicator. With this extra function, you will not be bothered by humid or oppressive air. Dry air cools faster so you can cool more efficiently when the air is dry.

Easy to control

Operating the Tristar air conditioner is very easy. Thanks to the remote control, you can easily control the mobile air conditioner from a distance. You can also set the timer so the air conditioner activates or deactivates itself. You can control the climate in your home at all times, even when you are asleep or from the comfort of your chair!

Practical to use

You can also easily move the Tristar mobile air conditioner thanks to the castors. Thanks to its compact size, it does not take up too much space in your room and it also allows you to easily store it after the summer.

What's in the box:

Tristar Air conditioner, hose, remote control, instruction manual

Reasons to choose the Tristar AC-5529 Mobile Air Conditioner:

- Cooling capacity of 9000 BTU and 2.63 kW to cool a room up to 80m³
- Provided with two fan speeds and dehumidifying function
- Remote controlled and provided with a digital timer
- Low energy consumption: energy class A
- Mobile air conditioner and easy to move thanks to castors
